General information

Please read this manual and its safety instructions before using this product. Follow all instructions. This will prevent hazards that can lead to property damage and/or serious injury.

The product may only be used by persons who have fully read and understood the contents of this user manual. Ensure that each person using the product has read and follows these warnings and instructions.

Keep all safety information and instructions for future reference and pass them on to subsequent users of the product.

The manufacturer is not liable for damage to property or personal injury resulting from incorrect handling or failure to observe the safety instructions.

EN

Explanation of symbols

 WARNING

"Warning" indicates a hazard with a risk which, if not avoided, may result in injury.

NOTE!

"Note" indicates information that is considered important but is not hazard-related.

Product description

This camera is a dual lens camera for children.
This means it has one lens on the front and a second lens on the back. With this camera, children can take wonderful photos and videos, take selfies, record and play back sounds and voices, discover fun effects and picture frames and play various games.

Intended use

This product is suitable for use both indoors and outdoors.

Restrictions

 WARNING

The product is not suitable for children under 3 years.
Contains small parts. Choking hazard.

 WARNING

The product is not waterproof.
It should not be submerged in water or used in a wet environment.

EN

Safety instructions

⚠ WARNING

This product is only suitable for the purpose described, the manufacturer is not liable for damage caused by improper use.

⚠ WARNING

**Please read these operating instructions carefully before use.**

- Always protect your camera from drops, bumps and shocks.
- Keep a sufficient distance from objects that generate strong magnetic fields or radio waves to prevent them from damaging the product or affecting the picture quality.
- In the unlikely event of overheating, smoke or unpleasant odours coming from the unit, immediately remove the AA battery and stop operation.
- Please do not disassemble the product. Otherwise, any guarantee will be invalidated.
- Please dispose of waste and residues at the end of the product's life in accordance with local laws and regulations.

EN

Operating environment

- The product should not be exposed to high temperature and humidity differences to avoid condensation inside the housing or behind the lens.

- Store the product in a cool place (at room temperature) in a dry and dust-free place and never expose it to high temperatures or permanent direct sunlight.

- Protect the product from falls, bumps and knocks.

Disposal of WEEE and/or batteries by users in private households in the European Union:

This symbol on the product or on the packaging indicates that it cannot be disposed of with household waste. You must dispose of your waste appliance and/or battery by handing it over to the applicable take-back system for the recycling of electrical and electronic equipment

EN

and/or batteries. For more information on how to recycle this appliance and/or battery, please contact your local city office, the shop where you purchased the appliance or your household waste disposal service. Recycling materials helps to conserve natural resources and ensure that it is recycled in a way that protects human health and the environment.

 WARNING

Warning regarding the battery:
- Do not disassemble or hit the batteries. Be careful not to short-circuit the batteries. Do not expose the battery to high temperatures. Do not continue to use the batteries if they leak or expand.
- Always charge via the system. If the batteries are replaced with the wrong type, there is a risk of explosion.
- Keep the batteries away from children.
- Batteries can explode if exposed to an open fire. Never throw batteries into a fire.
- Dispose of used batteries according to local regulations.
- Before disposing of the unit, remove the battery and dispose of it separately.
