# KIDDYPIX ROBOZZ

## USER'S GUIDE

*Congratulations on the purchase of the Kiddypix Robozz!*
*With this camera you can take wonderful photos and videos with your child,*
*check out funny effects and photo frames and play different games.*
*We hope you have lots of fun!*

-------------------------------------------------------------------------------------------------------------------------------------

## USING THE CAMERA FOR THE FIRST TIME

To use the camera you need 3x AAA batteries and a micro SD card. They are not included.

Please use a high quality micro SD card - the maximum storage capacity should be 32GB.
Format your memory card using the settings menu in your camera before using it for the first time.
The "Format" option can be found in the "Settings" menu.

For safety reasons the batteries should be stored safely to prevent accident or injury.
To insert the batteries and the micro SD card, the battery cover screw must be opened first using the screwdriver supplied.
Please ensure the cover is securely closed after the batteries and memory card have been inserted.
**WARNING!** The camera is not suitable for children under 36 months because of choking hazard.

## ℹ️ IMPORTANT INFORMATION

To ensure the optimal functioning of your camera, please note the following important information:

MicroSD card:

• Please ensure your memory card is formatted in the camera before first using the card for the first time (Settings > Format).

• The maximum capacity memory card supported is 32GB.

Use of memory cards exceeding the maximum recommended capacity may result in file errors.

• The recording time depends on the selected resolution.

Batteries:

• If you are not going to use the camera for a long time, please remove the batteries.

## Safety instructions:

⚠️ **WARNING:** The camera is not suitable for children under 36 months because of choking hazard.

⚠️ **WARNING:** Always protect your camera from falls, blows and bumps.

• Keep a sufficient distance from objects that generate strong magnetic fields or radio waves, such as electrical appliances to prevent them from damaging the product or affecting the sound and image quality.

• Store the device cool (at room temperature) in a dry and dust-free location and never expose the product to high temperatures or permanently direct sunlight.

• In the unlikely event of overheating, smokes or unpleasant odors coming out of the unit, disconnect it immediately from the charging cable and remove the battery to avoid a fire.

ℹ️ All product specifications are correct at time of print and are subject to change without prior notice.

Easypix GmbH reserve the right for errors or omissions.

**DISPOSAL**

**Dispose of packaging**

For disposal, separate packaging into different types. Cardboard and board must be disposed of as paper and foil must be recycled.

**Disposal of Waste Electrical and Electronic Equipment and/or Battery by users in private households in the European Union.** This symbol on the product or on the packaging indicates that this cannot be disposed of as a household waste. You must dispose of your waste equipment and/or battery by handling it over to the applicable take-back scheme for the recycling of electrical and electronic equipment and/or battery. For more information about recycling of this equipment and/or battery, please contact your city office, the shop where you purchased the equipment or your household waste disposal service. The recycling of materials will help to conserve natural resources and ensure that it is recycled in a manner that protects human health and environment.

**Battery warning**

• Never dismantle, crush, or pierce the batteries, or allow the batteries to short-circuit. Do not expose batteries being placed in high temperature environment, if battery leaks or bulges, stop continue to use.

• Risk of explosion if battery is replaced by an incorrect type.

• Keep the batteries out of reach of children.

• Batteries may explode if exposed to naked fire. Never dispose of batteries in a fire.

• Disposed of used batteries observing local regulations.

• Before disposing the device, please remove the batteries.

**The camera is not suitable for children under 3 years because of choking hazard.**
